DETAILED ACTION

Response to Amendment

The Amendment, filed on August 22, 2003, has been entered and acknowledged by the Examiner.

Cancellation of claims 1-16 has been entered.

Claims 17-20 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification,

At page 1, the sentence that was inserted on a separate line immediately after the title by the Preliminary Amendment filed on August 22, 2003, has been amended as follows:

--This application is a divisional of Application No. 09/969,612, filed October 4, 2001, now U.S. Patent No. 6,611,095, issued August 26, 2003.--

Allowable Subject Matter

Claims 17-20 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 17, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 17, and specifically comprising the limitation of forming a plurality of connection tabs on one edge of the substrate in a direction crossing with the extending direction of the lower electrode so as not to be overlapped with the lower electrodes and forming at least one auxiliary pattern on an edge of the substrate, forming an insulating layer on an area excluding the luminescent pixels and the lower electrodes so as to be overlapped in part with the at least one auxiliary pattern.

Regarding claims 18-20, claims 18-20 are allowable for the reasons given in claim 17 because of their dependency status from claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Cited

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
